

LAB – Web App using the Azure Portal

The screenshot displays the Microsoft Azure Portal interface. At the top, the browser address bar shows the URL `https://portal.azure.com/#serviceme...`. The portal header includes the Microsoft Azure logo and a search bar. The main content area is divided into two sections. The top section, titled "Resource Manager | Resource group", shows a notification "Resource group created" with a green checkmark, stating "Creating resource group 'SeifWebAppRG' in subscription 'Diogo's Subscription' succeeded." Below this, there are buttons for "Go to resource gr..." and "Pin to dashbo...". The bottom section, titled "Microsoft.Web-WebApp-Portal-58a59783-bb9f | Ove...", shows a deployment status of "Your deployment is complete" with a green checkmark. It lists the deployment name, subscription, resource group, start time, and correlation ID. Below this, there are links for "Deployment details" and "Next steps", and a "Go to resource" button.
